第 3 位	中 島 晃 永	愛野少年剣道部
	橋 口 真奈美	館浦剣道スポーツ少年団

Figure 1. Phylogenetic tree of the 142 Japanese swordsmiths (shinobu) based on the Y-DNA haplogroups. The tree is rooted at the top left and branches out to the right. The names of the swordsmiths are listed in columns, with their corresponding Y-DNA haplogroups in parentheses. The tree is divided into several major clades, with some branches highlighted in red. The names of the swordsmiths are written in Japanese, and the haplogroups are written in English. The tree is a complex network of lines representing the genetic relationships between the swordsmiths.
